E & OE

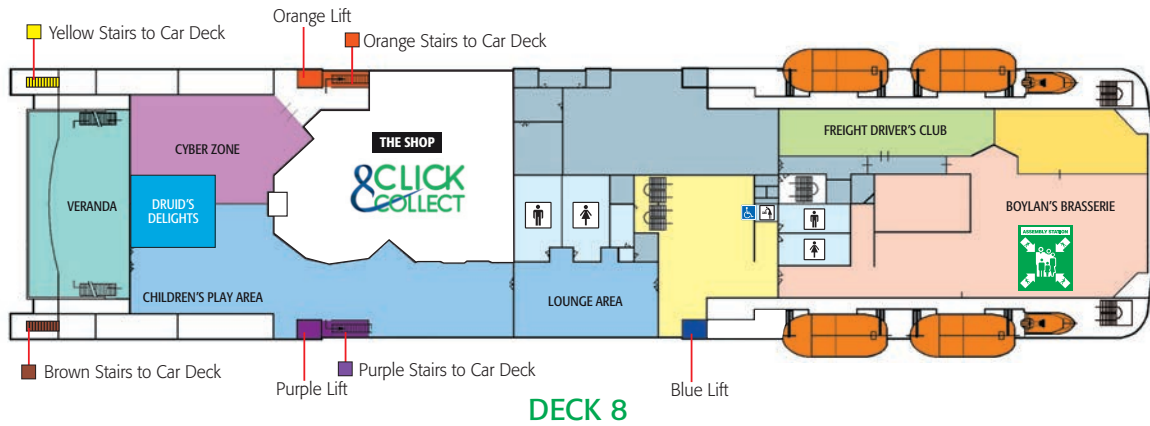

## A Sea of Information

The *Isle of Inishmore*, built in Rotterdam, took 15 months to build. She entered service on 2<sup>nd</sup> March 1997 on the Dublin-Holyhead route and now crosses the English Channel from Dover to Calais up to ten times a day.

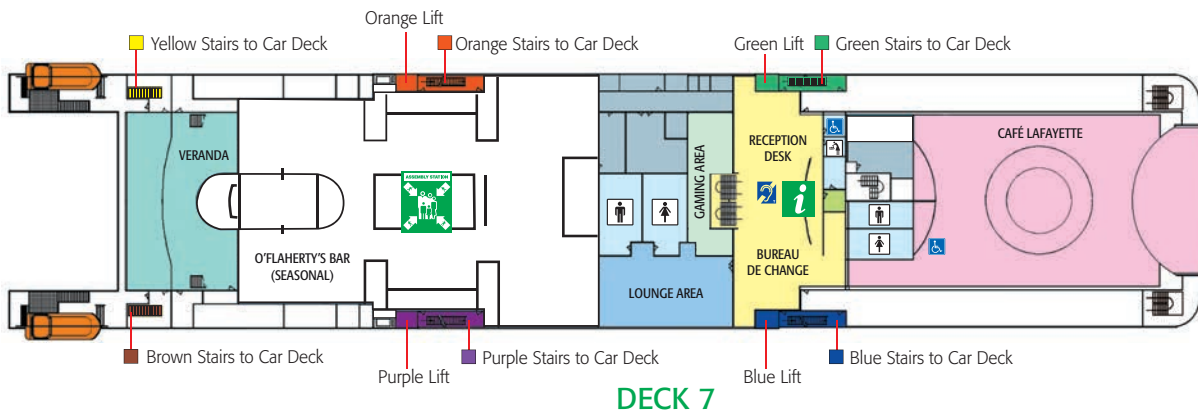

*Isle of Inishmore*, which is Irish for 'Big Island', is just like a floating island and offers all the facilities and amenities that you would expect from an Irish Ferries cruise ferry. The 7 miles / 11.26km of electrical cables give us the power to run this small island with all the facilities and connectivity you expect from a floating hotel and our state of the art navigation system can fix our position to within 33ft/10m.

With nearly 50 years of experience in sea travel, we are delighted to welcome you aboard the *Isle of Inishmore*. Take time to relax on this short voyage, use your generous Duty Free allowance to the full with some retail therapy or enjoy a wide choice of freshly made food and snacks to order.

# Important Safety Information

Safety is important, as is the comfort and enjoyment for all our passengers on the *Isle of Inishmore*. We have a number of safety procedures which must be followed. These are in place for your benefit and safety.

## Safety on Board

We operate to the highest safety standards, as set down by the International Maritime Organisation and are regularly monitored by the regulatory authority in each country.

**Please observe the following simple safety rules:**

- Please listen carefully to all announcements.
- Unaccompanied children (under 18 years old) are not permitted on outside decks. Note outside decks may be slippery when wet.
- When moving around the ship, please note the **Assembly Station** signs, and read the safety messages on the signs.
- Familiarise yourself with instructions on how to put on life jackets. These instructions are posted around the ship.
- Dispose of litter only in the bins provided.

Remember, we're here to ensure you enjoy your trip with us.

If you have any questions please do not hesitate to ask a member of our staff, or talk to us at our Reception Desk (Deck 7).

## Vehicle Loading Procedure

Loading vehicles onto *Isle of Inishmore* is a complex procedure. To achieve the best loading arrangements please be aware that a vehicle that has checked in after you may be loaded before you.

## Embarkation

On arrival on the car deck a crew member will direct you to a parking space. Before leaving your vehicle please ensure you have applied the hand brake and left the car in gear. If you are driving a motorhome or towing a caravan please ensure all portable gas cylinders are safely secured and turned off. Due to safety and security regulations, access to your vehicle at sea is not permitted. Please remember to take hand luggage you may require during the crossing, along with any valuables and medication. Lock your vehicle. Ensure your car alarm motion sensor is switched off. Given the short duration of your sailing, animals should be comfortable when left in your vehicle (remember to leave water and enough ventilation).

Animals are not permitted in the passenger area with the exception of approved Assistance Dogs wearing a regulation coloured harness or jacket.

## Check Your Stairways & Elevators

To help you locate your vehicle at disembarkation time, please remember the Car Deck number and the colour stairs / lift used as you leave your car. On arrival, please do not proceed to your vehicle until told to do so. Your co-operation is very much appreciated and will assist in a smoother disembarkation for all.

## Disembarkation

Please do not proceed to your vehicle until disembarkation announcements have been made. Please make yourselves comfortable and await instructions. Do not start your vehicle's engine or move your vehicle until instructed to do so and please follow all directions given by ship's staff. Please take your personal belongings with you when disembarking the ship.

## Access and Facilities

If you or a member of your party has reduced mobility or has any special requirements, please bring this to the attention of our crew at the Reception Desk on deck 7, who will be happy to assist you. On board *Isle of Inishmore* the following facilities are in place for your convenience: wheelchair, designated wheelchair accessible areas, 1 x 2 bed cabin, toilets and lifts. A hearing loop is also installed at our Reception desk (Deck 7).

## NO SMOKING

**IT IS ILLEGAL TO SMOKE IN ANY ENCLOSED AREA ON THE SHIP.**

Smoking (including electronic cigarettes) is only permitted in the designated smoking areas on the outer decks. Please take care when disposing of cigarettes. Use the bins provided. Don't pollute the sea.
